

**AMENDMENT NO. 1
TO
ORDINANCE NO. 5,
AN ORDINANCE ESTABLISHING REGULATIONS
FOR THE USE OF THE
SANTA ANA REGIONAL INTERCEPTOR**

Be it ordained by the Commission of the Santa Ana Watershed Project Authority that Ordinance No. 5, Section 509, Paragraph N is hereby amended as follows:

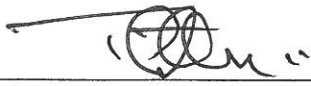

N. If the waste hauled by a liquid waste hauler is found unacceptable for discharge into SAWPA's designated discharge site and is not classified as hazardous, then the liquid waste hauler shall dispose of the wastes at a non-SAWPA legal disposal site. The liquid waste hauler shall provide SAWPA with a copy of the waste hauler's manifest documenting the legal disposal of the rejected wastes within fourteen (14) calendar days from the date the waste was rejected. As an alternative, the liquid waste hauler may return the rejected wastes to the generator of such rejected wastes for additional pretreatment, and the liquid waste hauler may return to SAWPA or another legal disposal site for discharge. The waste hauler shall also provide SAWPA with a manifest documenting such alternative action. Failure to provide verifiable documentation shall constitute a violation of this Ordinance and may result in termination, revocation or suspension of the liquid waste hauler permit and all discharge privileges.

P. No liquid waste hauler shall dispose of any rejected load into any septic tank, cesspool, seepage pit or similar devices, any grease interceptor or trap, any storm drain, any collection system opening except those authorized in writing by the General Manager, or return the rejected load back to the site of origin, except as allowed in Section 509, Paragraph N.

This amendment will be effective July 1, 2009.

Adopted this 16th of June, 2009.
