Subject: FW: Draft EC Report

Initial comments.

1. Page 8. 2nd paragraph. OCWD/Met/NWRI study is also addressing Colorado River water imported by Met.
2. Table 1. Pages 10-12. Define shading and asterisk. Third column heading is inconsistent (EC Study to OCWD)
3. Page 14. 3rd paragraph. Roseville case involved the injection of disinfected drinking water— not reclaimed water.
4. Page 17. Paragraph 9, third line. Change 'regulatory' to 'regularly'
5. Page 17. Paragraph 10, third line. Reverse 'applicable no' to 'no applicable'
6. Page 18. Paragraph 13, sixth line. Change 'ensure' to 'ensue'
