Mr. Kurt Berchtold

Dear Mr. Berchtold:

The San Gorgonio Pass Water Agency (Agency) is a State Water Project contractor and imports State Water Project water for direct uses and groundwater recharge within the Agency service area. The Agency is also a signatory to the Cooperative Agreement to Protect Water Quality and Encourage the Conjunctive Uses of Imported Water in the Santa Ana River Basin, and is responsible under that agreement and Resolution Number R8-2008-0019 to provide certain information related to the import of State Water Project water for groundwater recharge uses.

Under the Cooperative Agreement and Resolution Number R8-2008-0019, the Agency is hereby providing the reports referenced in Paragraph 4. a., b. and c. for the Beaumont Management Zone for calendar years 2009, 2010, and 2011. The Agency currently does not serve any supplemental water to the San Timoteo Management Zone, which also lies partially within the Agency’s service area.

The Agency, in cooperation with the Beaumont Cherry Valley Water District and the City of Banning, delivered imported State Water Project water that was placed into the Beaumont Cherry Valley Water District Recharge Facility and the Little San Gorgonio Creek Recharge Facility, both located within the Beaumont Management Zone, for groundwater recharge during calendar years 2009, 2010 and 2011. A table illustrating the amounts of water and the Nitrogen and TDS concentrations of the imported State Water Project water is enclosed.

The Agency appreciates the cooperation of the Regional Water Quality Control Board, Santa Ana Region in this matter. Please do not hesitate to contact me if you have any questions.

Jeff Davis
